

# Release 1.0.0

- **WICORE-420** - Marketplace MS

- A module was created on the CRM side for managing a marketplace to sell and store products. This includes functionality for configuring products, managing orders, and handling transactions. The full functionality of this module is still to be determined.

- **WICORE-424** - Orders module. Backend part

- The backend part for the orders module has been implemented, laying the foundation for order management and processing.

- **WICORE-422** - Frontend: Initial infrastructure setup

- A basic structure for the frontend has been established, providing the foundation for further development of the user interface and functionalities.

- **WICORE-673** - Updated Logging System to Winston

- The logging approach has been migrated to Winston, improving log management and debugging capabilities.
