

Release 1.3.2 (06.11.2024)

Features

- **WICRM-494 - Notification Design Update**
 - Updated the design of notifications for improved readability and appearance.
 - **WICRM-482 - Manager Property Update in Client Profiles**
 - Changed the data structure to link each client's manager information directly to the employee database for more accurate references.
 - **WICRM-471 - Security Module: Frontend for Reports and Filters**
 - Added tables and filter drawer functionality in the new Security MS module, allowing security engineers to report issues and monitor their progress easily.
 - **WICRM-470 - Security Module: Backend for Issue Management**
 - Implemented backend logic for creating, editing, and tracking issues in the Security MS module. Set up role-based permissions for better access control.
