

# 1. Comments Section: Overview

The Comments section in Wifox Business Content Solution provides a powerful interface for managing user feedback across different content pages. It enables administrators to view, moderate, rate, and evaluate user-submitted comments, helping maintain content quality and user trust.

This section is ideal for platforms that include public interaction or reviews, allowing full control over user-submitted content with moderation, rating, and detailed evaluation tools.

The following sections are available in the Comments module:

- [List of Pages](#)
- [List of Comments](#)
